

CHRISTOPHER ROSALES

AMAZON WEB SERVICE & ON-PREMISE SYSTEMS ADMINISTRATOR |
WEB DEVELOPER

PROFILE

With a supervisory background, I have successfully led teams and guided junior developers to achieve project goals, ensuring that the team's work aligns with company objectives. As a Senior Software Developer with over six years of experience, I specialize in developing web applications using technologies such as HTML, JavaScript, AJAX, CSS, PHP, and MVC frameworks. I also have hands-on experience in managing and maintaining new application systems deployed on AWS cloud servers, overseeing their ongoing maintenance, and supporting information systems developed for on-premises servers to ensure their reliability and optimal performance. With a positive attitude and a strong commitment to continuous learning of emerging technologies, I am confident in my ability to make valuable contributions to your team and drive success.
